2 (a) Study Fig. 2.1, which is an article on hydro-electric power.

Bangladesh to invest in Bhutan's hydro-electric power project

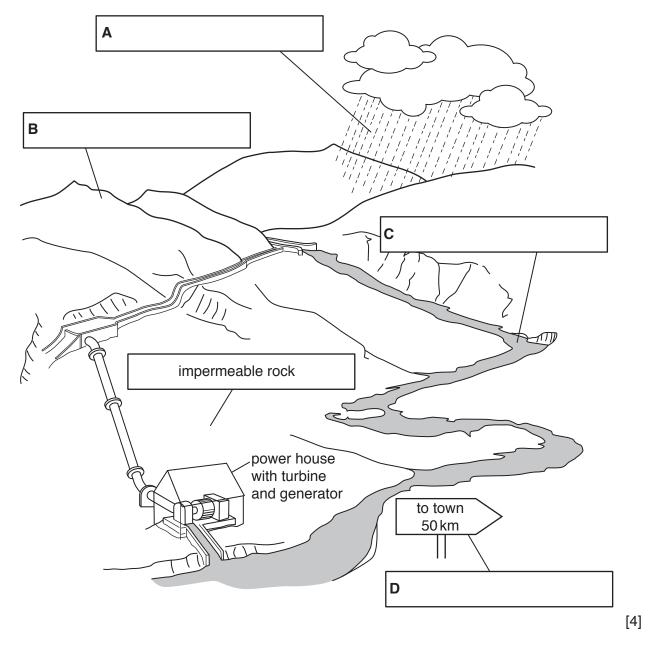

18 May 2016

Bangladesh is to invest with India in a hydro-electric project in Bhutan. Bangladesh's economic affairs minister said 'We have been dreaming of importing power from Bhutan for a long time. The fact that demand for power in both Bangladesh and India will keep increasing presents a big economic opportunity for Bhutan.' This project will also strengthen the relationship between the three countries. Bangladesh aims to become a middle income country and will need to import power from Bhutan to meet the growing energy demand.

4 (a) Study Fig. 4.1, which shows a statement about agricultural productivity in Bangladesh.

'Bangladesh has raised agricultural productivity significantly in the last few decades. It is remarkable that, with so many people and so little arable land, the country has been able to provide sufficient food for almost everyone,' said Qimiao Fan, World Bank Country Director for Bangladesh, Bhutan and Nepal. 'While rice will remain its focus, Bangladesh needs to find effective ways to diversify its agriculture, as well as adapt to a changing climate.'
