READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name in the spaces provided.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE ON ANY BARCODES.

Write your answer to each question in the space provided.

If additional space is required, you should use the lined page at the end of this booklet. The question number(s) must be clearly shown.

Answer three questions, one from each section.

The Insert contains Photographs A, B and C for Question 5.

Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.

The Insert is **not** required by the Examiner.

The number of marks is given in brackets [] at the end of each question or part question.

Section A

Answer one question from this section.

QUESTION 1

(a) Study Fig. 1, population pyramids for two different countries.

(b) Study Fig. 6, an article about the removal of an area of forest in Jakarta, the capital city of Indonesia (an LEDC in Asia).

AIRPORT ROAD PROJECT COULD INCREASE CITY'S FLOODS

The Jakarta Post

Jakarta – Oct 23 2008

akarta should get ready for even more flooding this rainy season after forest in the north of the city was cleared to make way for a road project, an environmental group said.

They called a press conference to draw attention to the destruction of 19 hectares of mangrove forest on the northern shore of the city. This forest has been cleared so the toll road to the Soekarno-Hatta International Airport could be widened and elevated.

"We urge the authority to stop this project and replace the destroyed forest," said Selamet Daroyni from the Indonesian Forum for the Environment.
