DEVELOPMENT STUDIES

0453/02

Paper 2 October/November 2010

2 hours

Candidates answer on the Question Paper.

Additional Materials: Ruler

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer **all** the questions.

You may not need all the answer lines for your answer.

You should read and study the sources **before** answering the questions.

Insert 1 contains Photographs A and B for Question 1.

Insert 2 contains Figs. 5A, 5B, 6, 7 and 8 for Question 3.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

This document consists of 13 printed pages, 3 blank pages and 2 Inserts.

1 (a) Study Fig. 1, which shows the production process.

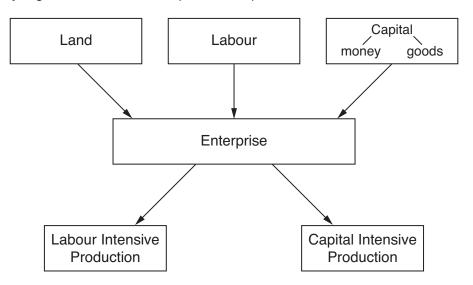

Fig. 1

(i)	Using Fig. 1 identify the three factors of production.
	[1]
(ii)	Give two types of <i>land</i> resources used in production.
	[2]
(iii)	Give two examples of <i>capital goods</i> used in production.
(iv)	What is most by anterprise in the production process?
(iv)	What is meant by <i>enterprise</i> in the production process?
	[1]

© UCLES 2010 0453/02/O/N/10

For Examiner's Use

3 **(b)** Study Photographs A and B (Insert 1). Photograph A shows *labour intensive* production in a textile factory in North Korea. Photograph B shows capital intensive production in a car assembly plant in China. Using evidence from the photographs only, describe two main differences between labour intensive and capital intensive production.[2] (ii) Both factories shown in Photographs A and B achieve economies of scale. What is meant by economies of scale? (iii) Explain three ways by which large firms, such as those shown in Photographs A and B, can achieve economies of scale.[3] Imagine that you are carrying out research, by observation, in the factory shown in Photograph A. Give **four** observations which you would make about this factory.

[Total: 16 marks]

For Examiner's

Use

2 (a) In many places in the world children are economically active (working for money). This can be in factories, on farms or by providing services. Study Fig. 2, which shows the number of economically active children in the world (in millions).

For Examiner's Use

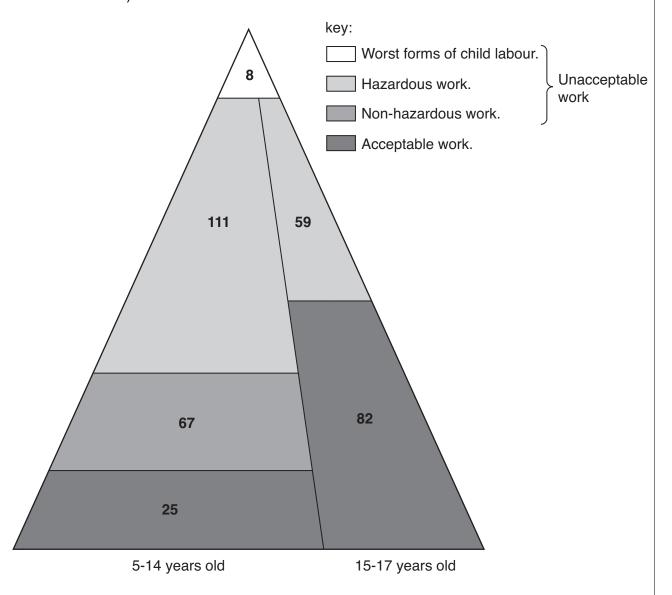

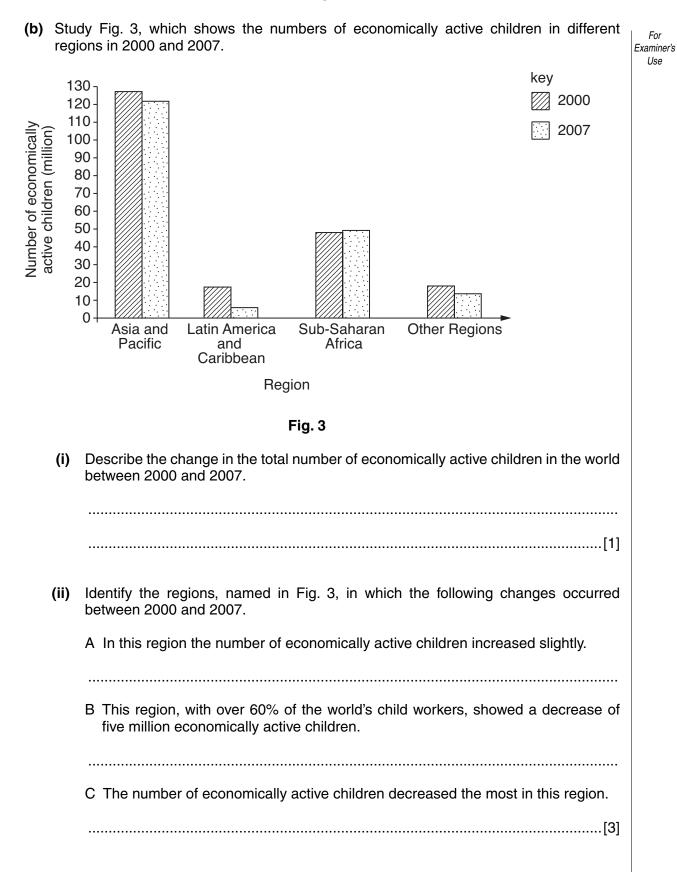

Fig. 2

(i)	How many million children aged 5 to 14 are doing hazardous work?	
		[1]
(ii)	In total, how many million children are doing work which is unacceptable?	
		[1]

(c) Study Fig. 4, which shows information about children aged between 7 and 14 in eight countries.

For Examiner's Use

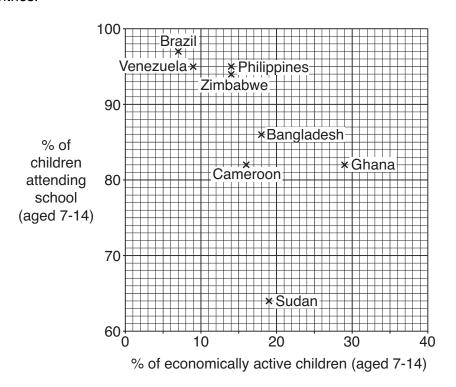

Fig. 4

(i)	Name the country, labelled on Fig. 4, which has the highest percentage of children who are economically active.
	[1]
(ii)	Describe the general relationship between the percentage of children who are economically active and the percentage attending school. You should refer to examples and use figures in your answer.
	[3]
(iii)	Eight countries have been chosen at random from all the countries in the world to use in this graph. What is a <i>random sample</i> ?
	[4]

	(iv)	Suggest a different sampling method that can be used to select eight countries. Explain why you chose this method.	For Examiner's Use
		Method	
		[2]	
(d)		e one different example of a job which a child, aged 7 to 14, may do in each of the owing:	
	• a(griculture	
	• m	anufacturing industry	
	• pr	roviding services[3]	
		[Total: 16 marks]	

For Examiner's Use

3

3	of a	a Dev	nt is carrying out a research investigation about child labour in Bangladesh, as part velopment Studies course. Study Figs 5A, 5B, 6, 7 and 8 (Insert 2) which are four of information which the student wants to use.
	(a)		each of the following give two examples of sources of information, shown by Figs 5A, which are:
		(i)	primary data
		(ii)	secondary data[2]

(b) Look again at Fig. 5A and Fig. 5B. The student wants to present and analyse these statistics about child labour in Bangladesh.

For Examiner's Use

(i) Draw a graph using Fig. 5A to show the percentage of children in different types of employment in Bangladesh.

(ii)

[4]

girls of different ages who are working.
[5]

For Examiner's Use

(c)	Loo	k again at Fig. 6.
	(i)	Give two reasons why information from previous research investigations may not always be reliable.
		[2]
	(ii)	Suggest three reasons why some employers use children in their workplaces.
		[3]
((iii)	Describe the social and economic impacts of using child labour on a country such as Bangladesh.

For Examiner's Use

(d)	Loo	k again at Fig. 7.
	(i)	Explain why it is important to carry out a pilot study before using a questionnaire.
		[2]
	(ii)	Do you think the questionnaire is well designed? Give reasons for your answer.
		[3]
(e)	Loo	k again at Fig. 8.
	(i)	Explain why an interview was a useful method to obtain information from a child like Yasmin.
		[2]
	(ii)	Describe four difficulties which a researcher might have in using interviews and/or questionnaires.
		[4]

(iii)	For each difficulty you have identified in (ii) suggest how it might be overcome.	For Examiner's
		Use

0453/02/O/N/10

4 In developing countries, like Bangladesh, attempts are being made by government and non-government agencies to reduce child labour.
Study the following three methods.

For Examiner's Use

				-
Me	th	\sim	~	Λ
IVIE		()	(1	\boldsymbol{H}

Make education up to 14 years compulsory.

Method B

Fine owners of businesses who employ children under 14 years old.

Method C

Give financial assistance to business owners to buy computer operated machines.

Fig. 9

For each of the methods, A, B and C in Fig. 9, evaluate how successful they are likely to be in reducing the number of children working. In your evaluation you will need to explain the advantages and disadvantages of each of the methods of reducing child labour.
[9]
